
Free Web Hosting with cPanel and PHP5/Mysql

Posted by momo - 2008/03/31 22:40

I think this information can be useful for you. If you plan to get your website, here is one good free web hosting provider to choose - 000webhost.com

They provide hosting absolutely free, there is no catch. You get 250 MB of disk space and 100 GB bandwidth. They also have cPanel control panel which is amazing. Moreover, there is no any kind of advertising on your pages.

You can register here: <http://www.000webhost.com/34256.html>
